Telephone: (508) 921-1944

*The Trustees of Reservations (TTOR) is dedicated to preserving properties of exceptional scenic, historic and ecological value throughout the Commonwealth. Founded in 1891, it is a non-profit organization and relies for support entirely upon admission fees, membership dues and voluntary contributions.*

*Today, The Trustees of Reservations owns 71 properties totaling more than 17,500 acres, all open to the public. Through an active acquisition program, TTOR continues to save open land across the state.*

# Report of Activities 1988

---

Since our last Annual Report, TTOR has received three gifts of land, eight conservation restrictions and one historic preservation restriction, bringing to nearly 25,000 the number of acres permanently preserved and under our protection. Membership has gone up by 29% to 7,067, and annual giving went from \$461,773 a year ago to \$637,052. Fiscal year '88-89 ended in the black, repeating the success of a year ago.

It's been a good year. It's also been an excellent start for our new Standing Committee Chairman, Wiley Vaughan, and our new Treasurer, Peter Thompson. Both were elected to their leadership posts in September, replacing Sandy Saunders and Norton Sloan, respectively, who had each served with great distinction for six years. The tradition of strong volunteer leadership and commitment continues at TTOR and more than any other factor is responsible for our ongoing success as an organization.

## *Property Stewardship*

In '88, as before, the greatest part of our staff and financial resources went to the management and protection of our properties and conservation restrictions. We were most fortunate to persuade former Deputy Director for Land Conservation Davis Cherington to take on responsibility for this important department. Davis took the place of Bill Clendaniel, who left to become President of Mount Auburn Cemetery after completing seven very successful years as Deputy Director for The Trustees.

## **Integration of Castle Hill**

One of Davis's first responsibilities was to supervise the integration of Castle Hill into the TTOR management structure. That integration, which included the consolidation of all staff functions under the Northeast Regional Supervisor, has been successfully completed. Prospects are good that we will be able to run successful public programming at Castle Hill as well as maintain the property.

*Farewell party  
for outgoing  
Deputy Director  
Bill Clendaniel*

*Eloise Hodges*

Of great importance is the development of a financial plan which would provide the resources to repair and maintain the Great House and the vital components of the surrounding landscape. We look forward to the report of the Crane Properties Long Range Planning Committee, which has been working under the direction of Chairman Norton Sloan to chart a financially viable course.

**New  
management  
on the Islands**

Another important addition to our management team has been Chris Kennedy, who was hired in October of '88 to fill the newly created position of Assistant Regional Supervisor for the Islands. With valuable previous experience with the Massachusetts Division of Fish and Wildlife, Chris provides The Trustees with the opportunity to become a more effective and visible force for land conservation on Martha's Vineyard and Nantucket. Population growth and increased visitation have created major human impacts on our properties there.

One of our greatest management challenges is how to provide opportunities for public recreation without destroying the natural resource that has been entrusted to us. The work of Associate Director for Natural Science Rob Deblinger has been of immeasurable help to our field managers, particularly on our barrier beaches where the piping plover and the least tern — both endangered species — are thriving along with swimmers, picnickers and fishermen.

**Collections  
Conservation  
Fund**

Visitation to our nine historic house museums presents a different sort of problem. Wear and tear has increased over time, prompting Chairman Peter Spang and his Collections Committee to recommend, and the Standing Committee to approve, the establishment of a Collections Conservation Fund. As a result, there now exists a dedicated fund to which contributions are being actively sought for the purpose of maintaining TTOR's priceless historic houses and their contents.

---

With each passing week property management staff and volunteers are increasingly conscious of how land use changes on neighboring properties can adversely affect our Reservations. The Cohasset Heights Landfill, for example, has expanded over the years to the point where it has polluted several acres of the Whitney and Thayer Woods Reservation. Many hours of staff time and many more dollars of legal services have been committed in an effort to mitigate the effects of the landfill on our property. At best, our efforts have made a bad situation marginally better.

Persistence has paid off somewhat more conclusively at Notchview Reservation in Windsor, where a reasonable buy-out of Smith College's right to occupy and use the Main House was negotiated. This agreement relieves The Trustees of a potentially costly burden in the years ahead.

### **Battle for Misery Island**

Our greatest battle last year still rages on. That is, of course, our defense of Misery Island, which has been named as a possible location for a secondary sewerage treatment plant. It would indeed be an unfortunate irony if efforts to clean up water pollution in the harbor came at the expense of the only island in Salem Bay available for public recreation. We aim to win this one, and with the tremendous outpouring of public support shown to date, our chances are good.

### *Land Conservation*

### **Outreach to landowners**

Problems confronting our existing properties have not kept us from looking for new parcels to protect. However, we are changing the way we do business. Amendments in the federal tax laws in recent years and increases in local property values have reduced the frequency of major gifts of land and endowments, all of which has required new thinking and new approaches in our Land Conservation Program. More specifically, we have begun to concentrate less on fee acquisition and more on conservation restrictions and on outreach to landowners and the land planners.

This new approach has been accompanied by a number of new personnel. In March, Deputy Director for Land Conservation Elizabeth Bell left us to take charge of land acquisition in Massachusetts for The Nature Conservancy. Wesley Ward, who had been working as our Land Protection Consultant following his return in 1987 from the public administration program at the

Director Fred Winthrop leads a press conference on Misery Island, Salem Bay.

Eloise Hodges

Kennedy School, was appointed to carry on Elizabeth's ambitious and fruitful work.

In June, Charles Wyman joined us as Land Protection Specialist. Charlie was lured away from his job as Conservation Administrator for the Town of Lexington and has quickly become expert in the negotiation and drafting of conservation restrictions.

From July through August, Alexandra Teitz assisted the land conservation staff as an intern, compiling the forthcoming *Massachusetts Land Protection Handbook*. Alexandra's internship was funded in part by a grant from the Center for Environmental Intern Programs in Boston.

This strong and energetic land conservation staff has been supported by grants from the Bank of New England, the Cabot Family Charitable Trust and the Land Planning and Management Foundation, enabling TTOR to expand its technical assistance services to landowners, land trusts and communities. In October, we sponsored and organized the first Massachusetts Land Trust Conference at the Ashland 4-H Center, which drew about 60 people from about 40 trusts and conservation organizations. We hope this will be an annual event, cementing our cooperative association with the growing number of local and regional land trusts throughout the state.

### **Land conservation seminars**

The long-term success in our land conservation efforts will depend on our ability to make landowners and their advisors aware of financially sound alternatives to subdivision and development of environmentally sensitive and valuable properties. To this end, our staff put a great deal of effort into several educational programs. In the spring of 1988, we helped to plan the second in a series of seminars on conservation planning for landowners in the Hamilton, Wenham, Essex area. The brainchild of Advisory Council member Susanna Colloredo-Mansfeld, this

Dorothy Kerper Monnelly

series was addressed to larger landowners concerned about estate taxes and development pressures. With the Essex County Greenbelt Association, we sponsored a similar series of three evening seminars for landowners, land trust members, and community officials.

In February of 1989, *Landowners in Trust: Conservation Options for Private Landowners*, a prize-winning video produced by Weisman Video Productions of Newton, was completed by The Trustees in cooperation with the Vermont Land Trust and the Society for the Protection of New Hampshire Forests. Funded by the Land Planning and Management Foundation, this video will be made available to local and regional land trusts as well as to our own staff and volunteers as a tool for marketing land conservation to owners of important land.

We are delighted to report that a very generous gift from an anonymous donor will permit us to launch the Land Conservation Center, expanding and institutionalizing this outreach program. One of our most important goals now is to find additional funding necessary to maintain the Center and to provide additional expert staff to disseminate TTOR's considerable knowledge and experience.

### **Cooperation with state**

Another major activity in FY '88-89 has been our cooperative acquisition efforts with state open space agencies. Recognizing that most major acquisitions in today's market will likely require some public funding, and encouraged by the \$250 million bond authorization for open space acquisition passed by the Legislature at the end of 1987, we expanded our efforts to acquire key high priority parcels on behalf of state agencies. In September 1988, The Massachusetts Farm and Conservation Lands Trust sold the Wylde Farm property (purchased in December 1986 with loans from the Revolving Fund and the Williamstown Rural Lands Foundation) to the Department of Environmental

Wesley T. Ward

Management at a price sufficient to cover our investment including expenses and overhead.

Emboldened by this success and the state environmental agencies' interest in expediting their projects, we invested a great deal of time in various potential pre-acquisition efforts. Unfortunately, the Commonwealth's open space acquisition programs ran afoul of the state's fiscal problems, greatly increasing the risk involved in pre-acquisition projects. As a result, we have concluded that, at present, such projects have become too expensive, risky, and time-consuming for us to be directly involved in them.

On several occasions this year, we have made loans from the Gordon Abbott Jr. Land Conservation Fund to provide money for appraisal, engineering and legal fees associated with these potential pre-acquisitions. The Abbott Fund was established in 1984 to provide risk capital on short notice when land is threatened and repayment of the loans is uncertain. Loans from the Abbott Fund were particularly important in Mashpee, where we provided a loan of \$20,208 to the Mashpee Conservation Trust and The Nature Conservancy to secure payment of private pledges for the local share of an important 23-acre acquisition on the Mashpee River south of our property.

### **Emphasis on conservation restrictions**

As stated, we are placing increased emphasis on acquiring conservation restrictions. During the fifteen-month period of this report, we have accepted an additional nine conservation restrictions protecting 520 acres of land. They bring our total to 86 restrictions protecting 6,656 acres.

We believe that conservation restrictions represent the most promising and cost-effective opportunity for expansion of our land protection efforts. Our experience with this flexible conservation tool enables us to tailor each restriction carefully to the owner's objectives and the special features of the land. We are

---

also finding that local land trusts often wish to work with us in negotiating complicated restrictions or in assuring landowners that monitoring and enforcement will be effective.

For example, in Duxbury we invited the Rural and Historical Society to be a co-holder of the preservation restriction on the Captain Daniel Bradford property, and in Bolton we joined with the Conservation Commission to accept conservation restrictions on the Phillips property. In both cases, we have the primary responsibility for review, approval and enforcement, but we share responsibility for regular monitoring with the co-holder.

### *Development*

#### **Record Annual Appeal**

Underpinning all TTOR's property management and land conservation efforts has been the solid performance of the Development Department. Notwithstanding significant staff turnover and a seven-month vacancy in the Development Director's position, the department was successful in finding more donors and raising more dollars than ever before. Thanks are due to Arthur Clarke, Annual Appeal Chairman, and Snooky Phippen and Hall Peterson, Co-Chairmen of *The 1891 Society*, and, of course, to Ann Powell, our outstanding new Deputy Director for Development, whose arrival in September has breathed new life into the fundraising effort.

#### **Growth through direct mailing**

Another high point in the Development Office has been the work of Susan McGarvey, Associate Director for Membership. Under her guidance, TTOR took its first bold steps into the world of targeted, direct mailing. The results have been excellent, with membership up 29% over a year ago. Susan has also worked closely with volunteers and field staff to put on over 50 events at the properties, ranging from canoe trips to craft fairs. Our goal is to maintain our membership renewal rate at a high level and, of course, to offer all visitors to the properties an experience of highest quality.

### *Public Information*

The Public Information Department also has played a key role in serving the property visitor. In a joint venture with field and ecology staff, interpretive sign panels for the boardwalks at the Crane Reservation have been produced, as have maps of several of the properties, giving visitors trail as well as historic and descriptive information.

*Centennial  
Committee  
Chairman Judy  
Keyes of Concord.*

*Elizabeth West*

The greatest challenge for Eloise Hodges, our extremely talented Deputy Director for Public Information, has been taking on responsibility for the Centennial Program. In FY '88-89 major progress was made in planning this year-long event.

### **Centennial Celebration**

With Chairman Judy Keyes at the helm, the Centennial Committee will focus on the following projects in the coming months: publication of a special Property Guide; publication of a history of TTOR; trip to National Trust properties in England in September 1990; TTOR exhibit at the Ellis Memorial Antiques Show in October 1990; TTOR exhibit at the New England Flower Show in March 1991; gala dinner at Castle Hill on June 1, 1991; Discovery Days on selected properties across the state throughout '91; production of a TTOR poster and T-shirt for distribution during the Centennial year; and a grand finale bash at Naumkeag on October 5, 1991.

Key to the Public Information program and vital to a successful Centennial will be the production of a 15-minute film on TTOR, to be ready for distribution by the fall of 1989, and the services of a PR firm to publicize the celebration. Between now and '91 will be a great time for TTOR to tell its remarkable story and to recruit new support.

In the meantime, the pressures on the landscape persist and challenges for TTOR abound. With the ongoing hard work of a dedicated staff and the support of committed and generous volunteers, the legacy of successful stewardship will continue.

*Frederic Winthrop, Jr.  
Director*

# Property and Restrictions Acquired by The Trustees of Reservations as of March 31, 1989

---

## Northeast Management Region

**Misery Island Reservation addition, Salem Bay:** One-half-acre parcel, previously one of two remaining private inholdings on Great Misery Island. Purchased with funds donated for this purpose during a special fundraising campaign.

## Southeast Management Region

**Peters Reservation, Dover:** 91 acres of woodland bordering the Charles River, including oak-hickory forest and red pine plantation. Gift by bequest of Mrs. Jane Peters Guild.

**Peters Reservation addition, Dover:** 5.4-acre parcel of upland forest on Farm Street and Glen Street in Dover, opposite the Glen Street frontage of the Peters Reservation. Gift of Theodore Chase of Dover and Mrs. Ellen Moot of Cambridge.

**Capt. Daniel Bradford House, Duxbury:** An historic preservation restriction protecting the Daniel Bradford House, a National Register property built about 1800, and its surrounding 8 acres. Held jointly with the Duxbury Rural and Historical Society. Gift of Miss Gertrude Lanman.

**Charles River, Sherborn:** A conservation restriction on 88 acres of fields, forested upland and wetland between Forest Street and the Charles River, adjacent to Rocky Narrows Reservation. The restriction protects an important bluff overlooking the Charles River and provides the first walking access to Rocky Narrows from neighborhood streets. Gift of Mrs. George Lewis, Sr.

*Peters Reservation,  
Dover*

---

**Martha's  
Vineyard  
Management  
Region**

**Nashaquitsa, Chilmark, Martha's Vineyard:** A conservation restriction on 75 acres of upland with views of the Atlantic Ocean and Menemsha Pond. The restriction protects a pristine example of maritime shrub habitat, with an especially diverse fauna due to the interspersed openings, shrub thickets and pockets of forest. Gift of Weston Howland, Jr.

**Prospect Hill, Chilmark, Martha's Vineyard:** 8.3 acres, including the crown of Prospect Hill, highest point on Martha's Vineyard. In conjunction with the recent purchase of the Sigourney family parcel, this property will provide the first public access to the adjacent Menemsha Hills Reservation. Gift of Prospect Hill Association.

**Winchelsea Lot, adjacent to Cape Poge Wildlife Refuge:** On a 4.8-acre parcel, TTOR has retained a deed restriction and an easement allowing right of passage between the shoreline and the dune. TTOR purchased the lot from the Winchelsea Corporation in 1985 with borrowed funds and sold it to Thomas C. Wallace of Edgartown in 1988. The deed restriction limits the parcel to single family residential use and requires design and siting review and approval for any structures.

**Central  
Management  
Region**

**Bear's Den Reservation, New Salem:** A 3-acre wooded parcel adjacent to Bear's Den Reservation, providing additional protection to the south bank of the Swift River's Middle Branch. Gift of Mrs. Dorothy Fittz.

**Rattlesnake Hill, Bolton:** A package of five conservation restrictions on 152 acres of rolling fields, woodland, swamp and ponds between Rattlesnake Hill and Interstate 495, including the setting for the oldest house in Bolton. Held jointly with the Bolton Conservation Commission. Gift of Dr. Philip Phillips and Mrs. Patricia Davies.

**Western  
Management  
Region**

**Monterey Road, New Marlborough:** A conservation restriction protecting 197 acres of rolling woodland, including two small fields, seasonal streams and wetlands. The property has over one mile of frontage on the scenic Monterey-New Marlborough Road, a dirt road framed by stone walls and surrounded by forest and fields. Gift of Miss Margaret Phillips.

# Land Conservation Projects Completed by the Massachusetts Farm and Conservation Lands Trust in 1988

---

**Wylde Farm, South Williamstown:** 105 acres of scenic farm and forestland, sold in September 1988 to the Massachusetts Department of Environmental Management for inclusion in the abutting Taconic State Park. The property was purchased from the Wylde family in 1986 with loans from the Revolving Fund for Land Acquisition and the Williamstown Rural Lands Foundation.

**Powisset Farm, Dover:** A 4-acre parcel of land on Walpole Street was sold to Frederick O. Muzi as an addition to his adjacent property, which he purchased in 1986. The parcel is restricted to one single family house, and TTOR retains a trail easement affording access to Noanet Woodlands Reservation. This transaction is the last of 8 lots sold as part of the Powisset Farm limited development project begun by MFCLT in 1985. This project resulted in the protection of 106 acres of farmland now owned by MFCLT and 33 acres of woodland now owned by Dover.

*Bear's Den  
Reservation,  
North New Salem*

*Robert A. Clark*

# Properties 1892-1988

# Financial Report

---

The fiscal year ended March 31, 1989 was one of substantial progress for TTOR. In the financial area, the continuing consolidation of operations has greatly enhanced management planning and control.

Comparisons with last year's annual report are difficult because it covered a transitional fifteen-month period as the new fiscal year was established. The operation of Castle Hill Foundation, which included its results for only three months in the prior financial statement, includes a full fiscal year in this year's statement.

The current operating fund showed a surplus (\$40,000) for the second consecutive year. This was due to increased revenues, particularly from the Annual Appeal, and tight fiscal control. The surplus was achieved after transfers of \$180,000 to the reserve for depreciation and extraordinary expenses. After capital expenditures of \$237,000, the balance in this reserve fund stands at \$405,000, providing ongoing flexibility for keeping the plant and equipment in good shape. We also added \$100,000 to the spending policy reserve fund created last year.

During the year, the pension plan was terminated, resulting in a reversion to TTOR estimated at \$375,000. A new arrangement for retirement benefits was put into place with TIAA/CREF, a major provider of plans for non-profit organizations.

During this fiscal period the value of our endowment assets has kept pace with the strong progress in the securities markets, and the funds continue to provide significant support for the operating budget.

Respectfully submitted,

**Peter C. Thompson**  
*Treasurer*

## Summary of Revenues

## Summary of Operating Expenses

# Balance Sheet

March 31, 1989 (dollars in thousands)

	Current Operating Funds	All Other Funds	Total All Funds

## *Thanks*

*We would like to take this  
opportunity to thank all the vol-  
unteers who give generously of  
their time and expertise to The  
Trustees of Reservations. Their  
contributions are invaluable.*

# Membership and Development

---

The Trustees of Reservations receives essential annual operating income from contributors to the Annual Appeal and the Membership Program. Many supporters also contribute to special fundraising projects and land acquisition funds.

Members may designate their dues statewide or to a Friends group which supports a particular property or group of properties.

Membership categories include the following: Individual \$35; Family \$50; Contributing \$75; Supporting \$100; Sustaining \$250; Sponsor \$500. An annual membership of \$1,000 or more entitles the donor to inclusion in *The 1891 Society*, which also has categories of giving of \$2,500 to \$4,999 and \$5,000 and above.

## Annual Appeal and Membership Income (unaudited)

---

	1988		1987	
	Amount	Donors	Amount	Donors
Annual Appeal	\$637,052	2,070	\$461,773	1,737
Membership	\$376,946	6,926	\$333,166	5,474
Total Gift Income	\$1,013,998*	8,996	\$794,939	7,211

\*Figures for 1988 include gifts to Castle Hill.

# Contributors

The Governing Board and the staff wish to thank all those who generously supported The Trustees of Reservations in 1988. These gifts make it possible for The Trustees to maintain the effectiveness of its conservation programs and to provide the highest quality of management services at its 71 properties throughout the Commonwealth.

Though we would like to list all those who contributed to The Trustees in 1988, space limitations require that we only include members of *The 1891 Society*, or donors who gave \$1,000 or more.

In 1988, 310 members of *The 1891 Society* contributed to the Annual Appeal and to special projects. Gifts for special projects included contributions to the Misery Islands Defense Fund and the Appleton Farms Grass Rides Endowment Fund.

---

# A Legacy for Tomorrow

---

Since its founding in 1891, The Trustees of Reservations has benefited in many ways from the generosity of its supporters. By giving generously of their time and financial resources, they have made The Trustees a strong and effective organization.

Many also have provided for The Trustees in their estate plans. The first bequest to The Trustees came in 1902 from Joseph B. Glover, a public spirited Bostonian. His bequest set an example that has been followed by many. These gifts have played a critical role in supporting the efforts of The Trustees to preserve special places of scenic, historic and ecological significance.

You, too, may wish to provide such support. There are many forms of bequests that will meet the personal requirements and wishes of the donor while contributing to the work of The Trustees.

The wording may be as simple as:

"I give, devise and bequeath to The Trustees of Reservations of Beverly, Massachusetts the sum of \_\_\_\_."

In addition to bequests, there are many planned giving opportunities which can provide the donor with current tax benefits, enhance retirement income, or provide for children's and grandchildren's futures while also providing support for The Trustees.

If you would like further information or assistance, please contact:

Ann F. Powell
